For Adopting Parents:

Hope For Families has two wonderful programs to help you realize your dream of having a family. You can adopt waiting children who are living in foster homes right here in the United States through our low cost Interstate Adoption Program. There are over 114,000 children in America who long to be part of a loving family and together we can meet some child's need for a permanent home. We also have a New Born Baby Adoption Program so that you can adopt an infant in the US through a private adoption process.

Hope For Families, Inc. is a Christian based Adoption Agency located in Fort Pierce, FL.

We offer a ministry "partnership" with your organization by providing Christian based counseling and tangible support to mothers in the crisis of an unplanned or unwanted pregnancy. We also work with families that cannot have children of their own, or wish to adopt a child.

We have facilitated the adoption of over 1300 children and hold a double license as a Florida adoption agency and as a clinical Marriage and Family Therapist.

Since you are serving God by helping people, you will eventually have need for our areas of expertise. We would like to be your "partner" in ministry as it relates to these areas of human need.

BIRTH MOTHER COUNSELING FROM A CHRISTIAN PERSPECTIVE

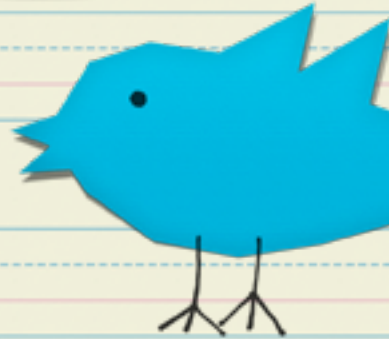

THERE IS HOPE FOR BIRTH MOTHERS

Hope For Families, Inc
866-773-3334

Choose Life

CHOICES

The world tells a young mother that there are many acceptable choices to deal with an unplanned pregnancy. We know God's plan is to choose life!

ADOPTION MAY BE THE BEST OPTION

Adoption is the legal placement of a child into a family that will raise the child as their own. Sometimes a young mother will see adoption as abandonment. In reality, it is often the kindest and most thoughtful gift a mother can give her child and adoptive parents.

BIRTH MOTHER SUPPORT

We are professionally trained to counsel birth mothers and provide the emotional, spiritual and tangible support she may need during the term of her pregnancy. After she has helped to choose the adoptive family for her child, we work to ensure adequate housing, medical care and nutrition for the mother during her pregnancy and birth of the baby.

NON - PROFIT

We are a Florida licensed non-profit child placement agency.

ADOPTING PARENTS

If you have parents in your organization that are considering adopting a child into their family - we can help. We provide complete adoption services

beginning with the home study through final legal adoption. Hope For Families, Inc. offers the expertise to facilitate new born, foster and interstate adoption.

MINISTRY PARTNERS

We want to support your ministry by providing Christian based services to birth mothers and families choosing to adopt.

For our Birth Mothers choosing to place their children for adoption:

The caring and understanding staff of Hope for Families will always be there to help you 24 hours a day whenever you need to talk both during and after your pregnancy.

We are here for you as long as you need us and can help you... Our staff:

- can share with you the details of the adoption process
- can help you develop an adoption plan around your needs and provide financial support
- will help you select an adoptive family
- will introduce you to the family you have selected.
- will be your guide and support system during your pregnancy.
- will help you deal with family members and friends who are not supportive.
- can help you explore parenting and adoption to determine if that is the best decision for you and your baby.
- can discuss parenting resources that are available to you such as Medicaid, food stamps, etc.
- can explore family support and friend support for parenting and adoption.
